Contents Volume 108, 2002

Research papers

Indirect estimation of near-saturated hydraulic conductivity from readily available soil information
N.J. Jarvis, L. Zavattaro, K. Rajkai, W.D. Reynolds, P.-A. Olsen, M. McGechan, M. Mecke, B. Mohanty, P.B. Leeds-Harrison and D. Jacques 1

Productivity assessment of upland and floodplain soils at Makurdi, Nigeria
M.A. Ekwoanya and A.G. Ojanuga 19

Leachability of Cu and Ni in wood ash-amended soil as impacted by humic and fulvic acid
T. Chirenje, C. Rivero and L.Q. Ma 31

Spectrophotometric color measurement in situ in well drained sandy soils
L.R. Barrett 49

Spatial variability of soil hydraulic conductivity along a tropical rainforest catena
J.A. Sobieraj, H. Elsenbeer, R.M. Coelho and B. Newton 79

Effects of afforestation on organic carbon, nitrogen and sulfur concentrations in New Zealand hill country soils
F.M. Groenendijk, L.M. Condron and W.C. Rijkse 91

Humus form in ecosystems of the Atlantic Forest, Brazil
A. Kindel and I. Garay 101

The age of preferential flow paths
F. Hagedorn and M. Bundt 119

Improvement of rhizosphere aggregate stability of afforested semiarid plant species subjected to mycorrhizal inoculation and compost addition
F. Caravaca, T. Hernández, C. García and A. Roldán 133

Discussion

Comment on the paper, "Evaluation of pedo-transfer functions for unsaturated soil hydraulic conductivity using an independent data set"
H. Vereecken 145

Book reviews 149

Erratum

Erratum to "Curvature of shrinkage lines in relation to the consistency and structure of a Norwegian clay soil" [Geoderma 106 (2002) 235–245]
P.H. Groenevelt and C.D. Grant 153

Research papers

Marked differences between van Genuchten soil water-retention parameters for temperate and tropical soils: a new water-retention pedo-transfer functions developed for tropical soils
M.G. Hodnett and J. Tomasella 155

Colour description and quantification in mosaic images of soil thin sections
W.P. Adderley, I.A. Simpson and D.A. Davidson 181

Nonexchangeable K release and supplying power of Indo-Gangetic alluvial soils
D.S. Benipal and N.S. Pasricha 197

Macropore transport of bromide as influenced by soil structure differences
S. Ersahin, R.I. Papendick, J.L. Smith, C.K. Keller and V.S. Manoranjan 207
Estimating soil water saturation from morphological soil indicators in a pedologically contrasted Mediterranean region
C. Tassinari, P. Lagacherie, R. Bouzigues and J.P. Legros 225
Microscale investigation into the geochemistry of arsenic, selenium, and iron in soil developed in pyritic shale materials
D. Strawn, H. Doner, M. Zavarin and S. McHugo 237
Tracing spatial and temporal variations in the sources of calcium in pedogenic carbonates in a semiarid environment
S.J. Van der Hoven and J. Quade 259
Estimating soil water retention curve in rhodic ferralsols from basic soil data
H. Medina, M. Tarawally, A. del Valle and M.E. Ruiz 277
Relationships between shrinkage indices and soil properties in some New Zealand soils
C.W. Gray and R. Allbrook 287

Discussion
Reply to comments on "Evaluation of pedo-transfer functions for unsaturated soil hydraulic conductivity using an independent data set"
B. Wagner, V.R. Tarnawski, V. Hennings, U. Müller, G. Wessolek and R. Plagge 301
